KONNEXIO'S REBRANDING HIGHLIGHTED BY FRESH NEW WEBSITE

London, ON, February 17, 2009 – Konnexio Inc. announced today that it has launched its new website in a rebranding of the company. This shift in direction is the result of the introduction of a new a flexible assembly machine concept which the company has recently developed.

“After a half decade of planning, we are excited to see our concept become a reality,” noted Konrad Konnerth, President of Konnexio. “We can now offer a product to our customers that will be highly beneficial in terms of cost, flexibility, and delivery time and we will communicate this message through our fresh new website and aggressive marketing strategies.”

About Konnexio:

Konnexio Inc., incorporated in 2003, was founded by Mechanical Engineer, Konrad Konnerth and has successfully designed and built custom automation machines for leading manufacturers in the automotive, medical device, and consumer products industries. Konnexio also provides service and support in North America for world renowned German-based machine builders.
